PROFESSIONAL SUMMARY

Senior **Flutter Engineer** with **8+ years** in mobile and **6+ years building production Flutter apps** across **iOS and Android**. Deep with the Flutter widget framework, state management (**Bloc, Provider, Riverpod**), smooth animations, and reactive UI. Strong in **Clean Architecture, SOLID, and scalable modular design**, REST/GraphQL API integration, and **performance optimization** with Flutter DevTools. Experienced with CI/CD (GitHub Actions, Bitrise, Fastlane), App Store / Play Store releases, and unit/widget/integration testing. Also an expert in native iOS (Swift). Dubai-based; ICPC / ACPC finalist (4000+ problems solved).

TECHNICAL SKILLS

Flutter Core	Flutter · Dart · Widget Framework · Reactive UI · Animations · Custom Widgets · Responsive UI
State Management	Bloc / Cubit · Provider · Riverpod · ChangeNotifier
Architecture	Clean Architecture · SOLID · Modular Design · MVVM · Repository Pattern
APIs & Data	REST (Dio) · GraphQL · WebSockets · OAuth2 / Token Auth · Secure Storage · Firebase
Performance & Debug	Flutter DevTools · Profiling · 99.5% crash-free · Memory Optimization
CI/CD & Release	GitHub Actions · Bitrise · Fastlane · Jenkins · App Store / Play Store · TestFlight
Testing	Unit · Widget · Integration · TDD · Code Reviews
Native	iOS (Swift, SwiftUI, UIKit) · Android (Kotlin) · Method Channels · Platform Integration

PROFESSIONAL EXPERIENCE

Senior Flutter Engineer · **Kaso (YC W22)** Sep 2022 – Present · Dubai, UAE

Lead Flutter development for cross-platform apps on a fast-scaling commerce platform.

- Build and maintain **cross-platform Flutter** apps on **iOS and Android** (and web), owning features end-to-end.
- Led the complete **iOS → Flutter migration** of the legacy native codebase to a modern, modular architecture.
- Architect with **Clean Architecture** + Bloc/Provider; built a reusable widget library; **99.5% crash-free** sessions.
- Integrate **REST APIs (Dio)** with token auth, retry/refresh, real-time updates, and offline-first sync.
- Tune performance with **Flutter DevTools**; own **CI/CD** (GitHub Actions, Bitrise, Fastlane) and store releases.

Stack: Flutter · Dart · Bloc · Clean Architecture · Dio · GitHub Actions · Bitrise · Fastlane

Senior Mobile Engineer / Team Lead (Flutter & iOS) · **KAIZEN Asset Management Services** Jul 2020 – Jul 2022

Led a 5+ engineer team building Flutter and native iOS apps for fintech & e-commerce (50,000+ users).

- Architected **Flutter** and native iOS apps with Clean Architecture and MVVM; led cross-platform migration strategy.
- Built secure auth, token/session management, payments, and KYC flows; enforced code-review and engineering standards.
- Established **CI/CD** (Azure DevOps, Fastlane), ~40% faster deploys; automated testing cut production bugs ~70%.

Stack: Flutter · iOS (Swift) · Clean Architecture · MVVM · Azure DevOps · Fastlane

Senior Flutter & iOS Engineer (Contract) · **IXCoders** Jan 2021 – Jun 2022 · Remote

- Delivered **Flutter** apps for e-commerce and delivery platforms (iOS & Android) with **100,000+ downloads**; state with Bloc/Provider.
- Built networking layers with REST integration, caching, and offline support; maintained **CI/CD (Fastlane)** for automated daily releases.

Stack: Flutter · Dart · REST · Clean Architecture · Fastlane

iOS Developer (Freelance) · **Magma** Oct 2020 – Sep 2021 · Remote (Lebanon)

- Built a multi-language app with light/dark theming and localization, plus an admin control panel; unit/UI testing and automated deployment.

Stack: iOS · Swift · Animations · Localization · Fastlane

iOS Developer (Freelance) · **Nayotec Technologies** Sep 2019 – Apr 2020 · Remote

- Developed a **B2C e-commerce app** (buy/sell marketplace), focused on UX, reliability, and performance; UI and unit testing with automated deployment.

Stack: iOS · Swift · Xcode · Bitrise

Mobile Application Developer (Flutter · iOS · Android) · **AutoTech Co** Feb 2018 – Jun 2020 · Syria

- Built native iOS and cross-platform apps (**iOS & Android**) serving 20,000+ users; **pioneered Flutter adoption**, cutting multi-platform dev time ~50%.

Stack: Flutter · iOS (Swift) · Android (Kotlin) · Cross-Platform

COMPETITIVE PROGRAMMING

ICPC / ACPC Finalist — 4000+ problems solved across Codeforces, HackerRank, AtCoder, LeetCode. 2nd Place ICPC Syrian Championship (2024) · 5th Place ICPC Damascus (2023). Strong algorithms, data structures, and optimization — applied to mobile performance, animations, and edge-case handling.
