PROFESSIONAL SUMMARY

Senior **Mobile Engineer** with **8+ years** building production apps, specializing in **Flutter (Dart)** and **native iOS (Swift, SwiftUI, UIKit)**. Architect scalable apps with **Clean Architecture, MVVM, and state management (Bloc, Provider, Riverpod)**, integrate **REST/GraphQL APIs**, and deliver high-quality, crash-free experiences (99.5%+). Strong in performance optimization, testing, CI/CD, and App Store / Play Store releases, with secure-development practice (Keychain, biometric auth, token management). Comfortable leading and mentoring engineers. Dubai-based; ICPC / ACPC finalist (4000+ problems solved).

TECHNICAL SKILLS

Mobile Core	Flutter & Dart (Expert) · iOS — Swift, SwiftUI, UIKit, Combine (Expert) · Android (Kotlin)
Architecture	Clean Architecture · MVVM · VIPER · SOLID · Repository Pattern · Modular Design
State Management	Bloc / Cubit · Provider · Riverpod · Combine
APIs & Data	REST (Dio, URLSession) · GraphQL · WebSockets · Secure Storage · Core Data · Firebase
Quality & Testing	Unit · Widget · UI · Integration · XCTest · TDD · Performance / Memory Optimization
CI/CD & Release	Bitrise · Fastlane · GitHub Actions · Jenkins · App Store / Play Store · TestFlight
Security	Keychain · Token / Session Mgmt · Biometric Auth · Data Protection
Also	AI / LLM Integration · Python · Git · Agile / Scrum · Mentoring · Code Reviews

PROFESSIONAL EXPERIENCE

Senior Mobile Engineer (Flutter & iOS) · Kaso (YC W22)

Sep 2022 – Present · Dubai, UAE

Lead mobile development for customer-facing and internal apps on a fast-scaling commerce platform.

- Architect and ship **Flutter** apps (iOS, Android, web) and native **iOS (Swift)**; led the iOS → Flutter migration of the legacy codebase.
- Apply **Clean Architecture** + Bloc/Provider and a reusable widget library; sustain **99.5% crash-free** sessions.
- Integrate **REST / GraphQL APIs** with token auth, secure storage, real-time updates, and offline-first sync.
- Own **CI/CD** (Bitrise, Fastlane, GitHub Actions) and App Store / Play Store releases; drive code reviews and standards.
- Additionally build AI / LLM integrations and data pipelines powering data-driven features.

Stack: Flutter · Dart · Swift · SwiftUI · Bloc · Clean Architecture · Dio · Firebase · Fastlane

Mobile Team Lead / Senior Mobile Engineer · KAIZEN Asset Management Services

Jul 2020 – Jul 2022

Led a 5+ engineer team building Flutter and native iOS apps for fintech & e-commerce (50,000+ users).

- Architected native **iOS (Swift, UIKit)** and **Flutter** apps with Clean Architecture and MVVM; led cross-platform migration strategy.
- Built secure features — payments, KYC, Keychain storage, biometric auth, and token/session management.
- Established **CI/CD** (Azure DevOps, Fastlane) ~40% faster deploys; automated testing cut production bugs ~70%; mentored juniors.

Stack: iOS (Swift) · Flutter · MVVM · Clean Architecture · Keychain · Fastlane

Senior Mobile Engineer (Contract) · IXCoders

Jan 2021 – Jun 2022 · Remote

- Delivered **Flutter & iOS** apps for e-commerce and delivery platforms with **100,000+ downloads**; REST integration, caching, offline support.
- Maintained **CI/CD (Fastlane)** for automated daily releases with comprehensive testing.

Stack: Flutter · Dart · iOS (Swift) · REST · Clean Architecture · Fastlane

iOS Developer (Freelance) · Magma

Oct 2020 – Sep 2021 · Remote (Lebanon)

- Built a multi-language iOS app in Swift with light/dark theming, polished UI, and localization, plus an admin control panel; unit/UI testing.

Stack: iOS · Swift · Localization · Fastlane · Jenkins

iOS Developer (Freelance) · Nayotec Technologies

Sep 2019 – Apr 2020 · Remote

- Developed a native **iOS (Swift)** B2C e-commerce marketplace app focused on UX, reliability, and performance; UI and unit testing.

Stack: iOS · Swift · Xcode · Bitrise

Mobile Application Developer (iOS · Flutter · Android) · AutoTech Co

Feb 2018 – Jun 2020 · Syria

- Built native **iOS (Swift)** and **Android (Kotlin)** apps, then pioneered **Flutter** for cross-platform delivery; served 20,000+ users with 4.5★+ ratings.

Stack: iOS (Swift) · Android (Kotlin) · Flutter · Cross-Platform

COMPETITIVE PROGRAMMING

ICPC / ACPC Finalist — 4000+ problems solved across Codeforces, HackerRank, AtCoder, LeetCode. 2nd Place ICPC Syrian Championship (2024) · 5th Place ICPC Damascus (2023). Strong algorithms, data structures, and optimization — applied to mobile performance, architecture, and edge-case handling.

EDUCATION

LANGUAGES

Arabic — Native · **English** — Professional

Bachelor's Degree, Software Engineering & Information Systems

Damascus University — Faculty of Information Technology Engineering · 2015 – 2021
